Collins Construction & Project Management Ltd

## Residential

Collins Construction & Project Management Limited (CCPM) is an Irish Building and Project Management Company which offers the services of Main Contractor and or Project Management direct to residential clients.

CCPM specialises in Interior Fit Outs, Refurbishments, Extensions, Renovations and New Builds using the best in energy efficient technologies and materials to produce sustainable projects.

At CCPM we simply enjoy building and we love to share our enthusiasm with our clients. We aim to create great working relationships and buildings of excellence with enduring quality.

Our approach involves a way of working that is equally applicable to all projects regardless of their diversity in scope, scale and budget. Each project is given the same careful, consistent approach and thorough attention to detail, no matter how small or large.

We can take your design and make it a reality or we can offer a full design and build service.

With a vast amount of experience in the industry and a large number of projects completed CCPM has established a good reputation by offering a first class service to clients from inception to completion. CCPM has created many fine examples of high calibre finished projects with the highest quality service offered.

The company is built upon clearly defined principles. Understanding the client brief to best achieve the client wishes and using the highest craftsmanship combined with quality materials to facilitate in delivering ambitious and innovative construction projects of highest possible quality that add value for our clients.

If you are looking for an exceptionally good value solution for all your construction needs, then look no further than Collins Construction & Project Management Limited.
